

Pricing & Packages

Updated: May 31, 2010

All packages include a free upload to our storefront website where prints, enlargements and gifts can be purchased with your session images printed on them; all orders are shipped directly to you in a timely manner.

*CD of your session images available for \$50.

Location Portraits

At just \$250, your outdoor portrait session will include a location of your choice and natural lighting. Use of backdrops or portable lighting will need to be pre-arranged and will vary in price depending on equipment rental rates. Session includes an unlimited number of high-quality high-resolution digital portraits with post-processing/digital retouches included for free. The location of the shoot is up to you; see location map for suggested sites.

Studio Portraits

At just \$300, your studio portrait session will include a location of your choice with studio lighting and backdrops. Specialty lighting, if required per our pre-session consultation, will require additional rental charges. Session includes an unlimited number of wardrobe changes and high-quality high-resolution digital images with post-processing/digital retouch included at no additional charge.

Engagement Portraits

Starting with a pre-session consultation to determine your perfect results, we will determine a price based on the location and studio portrait pricing schedules.

Weddings

Starting at \$1,500, your entire wedding day will be covered by one photographer from dressing up in your gown all the way through the grand exit at the reception. A pre-wedding meeting will determine the not-to-be-missed shots as well as other desired inclusions to your package. Additional photographers, videographers, albums and film photography can be added for an additional price. Post-processing/digital retouch is included along with free upload and hosting to our storefront website where prints and gifts can be affordably purchased and send directly to you and family members who may also want to order from the images taken that day.

Event Photography

Starting at an affordable \$75/hr for one-photographer coverage with unlimited high-resolution digital images. Additional photographers can be added for an additional price.

Band Photography

Starting at just \$75/hr, your show or recording studio session will be covered by one photographer with a high-resolution digital camera and flash; additional photographers can be added for an additional price. Post-processing/digital retouch are included. Portrait sessions for promotional use are priced same as the location and studio portrait sessions, however unlimited usage rights are an additional purchase should the album be distributed by major retailers.

Real Estate Photography

Pricing starts at \$300 per single-family home listing for up to 20 images covering the interior and exterior areas and includes digital retouching and resizing as well as unlimited usage rights. Virtual tours for use on the web available at an additional charge.

Small item studio photography

Starting at just \$20 per item with digital images including post-processing and studio lighting. Includes resizing for use on the web and usage rights.

Hints for portraits:

- *Having an example of what you'd like your images to look like will better communicate to us the desired outcome of our session.*
- *Please bring all grooming items you might need for touch ups including cosmetics, combs and styling products.*
- *When photographing groups, it is best to have a consistent color theme amongst the outfits to avoid clashing of patterns and other undesirable effects. Solid colors work best such as white, black or similarly colored denim tops with pants/bottoms of a solid color. Black is not suggested with the use of a black or dark colored backdrop.*
- *When photographing children, please communicate with the photographer the best time of day since interrupting nap time might be a bad idea.*
